## WARNINGS Read Before Using Your Sega Dreamcast Video Game System

### CAUTION

Anyone who uses the Sega Dreamcast should read the operating manual for the software and console before operating them. A responsible adult should read these manuals together with any minors who will use the Sega Dreamcast before the minor uses it.

### HEALTH AND EPILEPSY WARNING

Some small number of people are susceptible to epileptic seizures or loss of consciousness when exposed to certain flashing lights or light patterns that they encounter in everyday life, such as those in certain television images or video games. These seizures or loss of consciousness may occur even if the person has never had an epileptic seizure.

If you or anyone in your family has ever had symptoms related to epilepsy when exposed to flashing lights, consult your doctor prior to using Sega Dreamcast.

In all cases, parents should monitor the use of video games by their children. If any player experiences dizziness, blurred vision, eye or muscle twitches, loss of consciousness, disorientation, any involuntary movement or convulsion, IMMEDIATELY DISCONTINUE USE AND CONSULT YOUR DOCTOR BEFORE RESUMING PLAY.

To reduce the possibility of such symptoms, the operator must follow these safety precautions at all times when using Sega Dreamcast:

- Sit a minimum of 6.5 feet away from the television screen. This should be as far as the length of the controller cable.
- Do not play if you are tired or have not had much sleep.
- Make sure that the room in which you are playing has all the lights on and is well lit.
- Stop playing video games for at least ten to twenty minutes per hour. This will rest your eyes, neck, arms and fingers so that you can continue comfortably playing the game in the future.

### OPERATING PRECAUTIONS

To prevent personal injury, property damage or malfunction:

- Before removing disc, be sure it has stopped spinning.
- The Sega Dreamcast GD-ROM disc is intended for use exclusively on the Sega Dreamcast video game system. Do not use this disc in anything other than a Sega Dreamcast console, especially not in a CD player.
- Do not allow fingerprints or dirt on either side of the disc.
- Avoid bending the disc. Do not touch, smudge or scratch its surface.
- Do not modify or enlarge the center hole of the disc or use a disc that is cracked, modified or repaired with adhesive tape.
- Do not write on or apply anything to either side of the disc.
- Store the disc in its original case and do not expose it to high temperature and humidity.
- Do not leave the disc in direct sunlight or near a radiator or other source of heat.
- Use lens cleaner and a soft dry cloth to clean disc, wiping gently from the center to the edge. Never use chemicals such as benzene and paint thinner to clean disc.

### PROJECTION TELEVISION WARNING

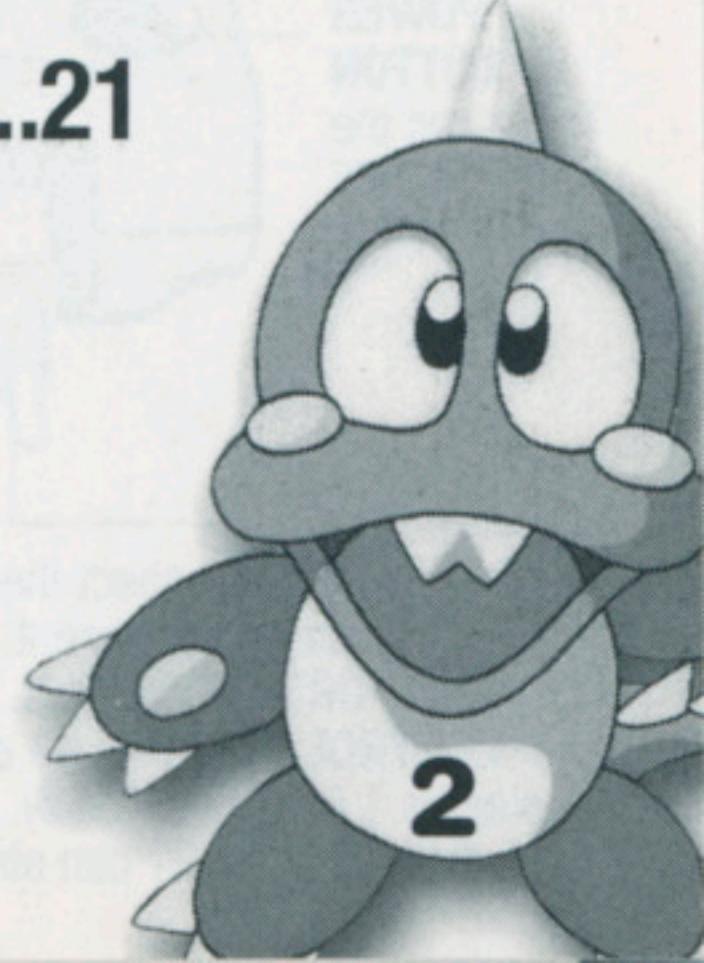

Still pictures or images may cause permanent picture tube damage or mark the phosphor of the CRT. Avoid repeated or extended use of video games on large-screen projection televisions.

# STARTING UP

1. Insert your **BUST-A-MOVE 4™** Sega Dreamcast™ Specific Disc into your Sega Dreamcast console.

2. Plug your Sega Dreamcast Controller into Controller Port A.

*Note: BUST-A-MOVE 4™ is a 1 to 2 player game\*. Before turning the Sega Dreamcast power ON, connect the controller or other peripheral equipment into the control ports of the Sega Dreamcast.*

3. Switch on the power to your Sega Dreamcast Unit.

4. You will be prompted to select a Visual Memory Unit (VMU) on which to save your progress in the game. Each saved game requires 15 blocks of memory. If you do not have a VMU or it does not have adequate blocks to save the game data, you will be alerted but may continue playing.

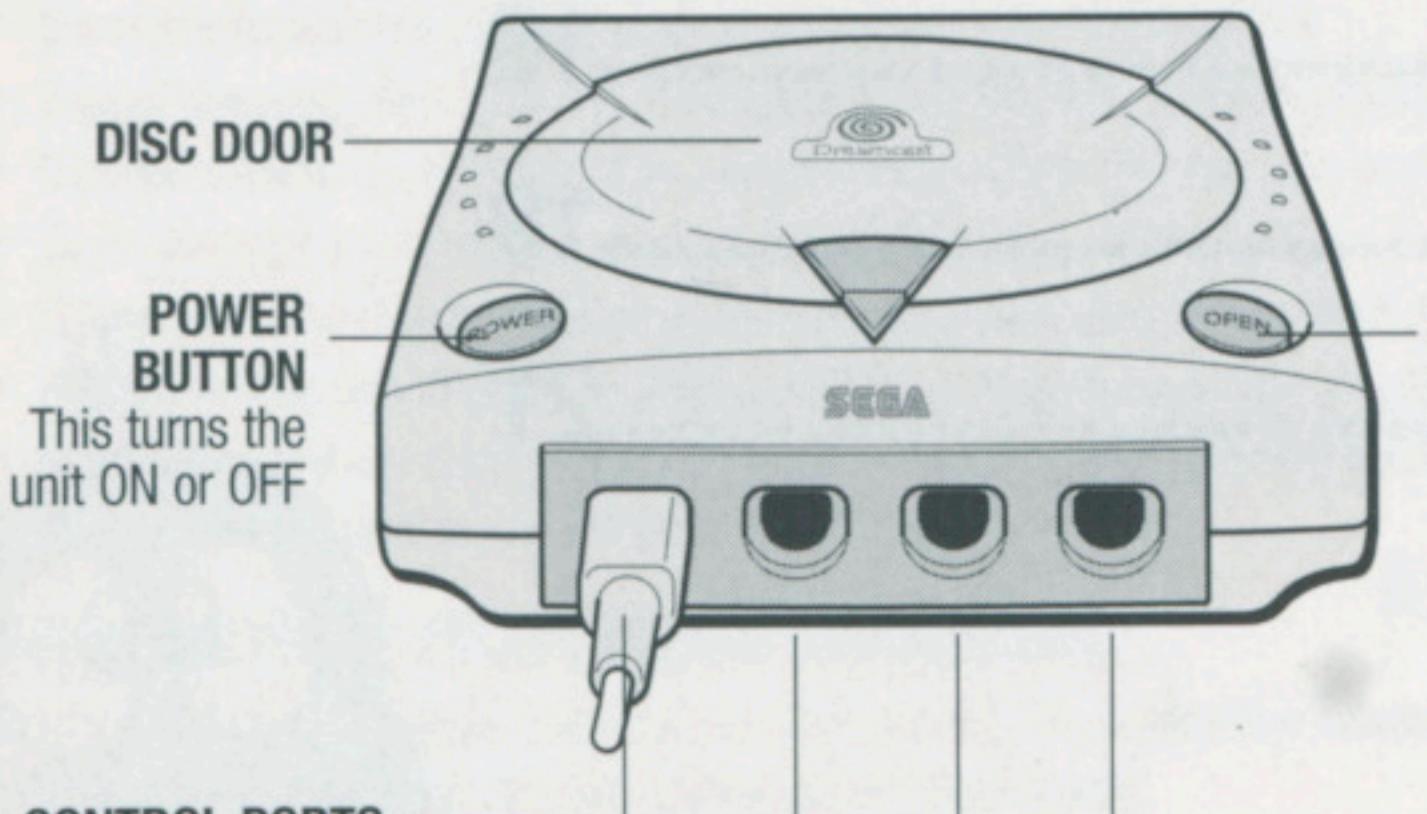

*While saving a game file, never turn OFF the Sega Dreamcast power, remove the memory card or disconnect the controller.*

*\*Purchase additional controllers (sold separately) to play with two people.*

*To return to the title screen at any point during game play, simultaneously press and hold the A, B, X, Y and START Buttons. This will cause the Sega Dreamcast to soft-reset the software and display the title screen.*

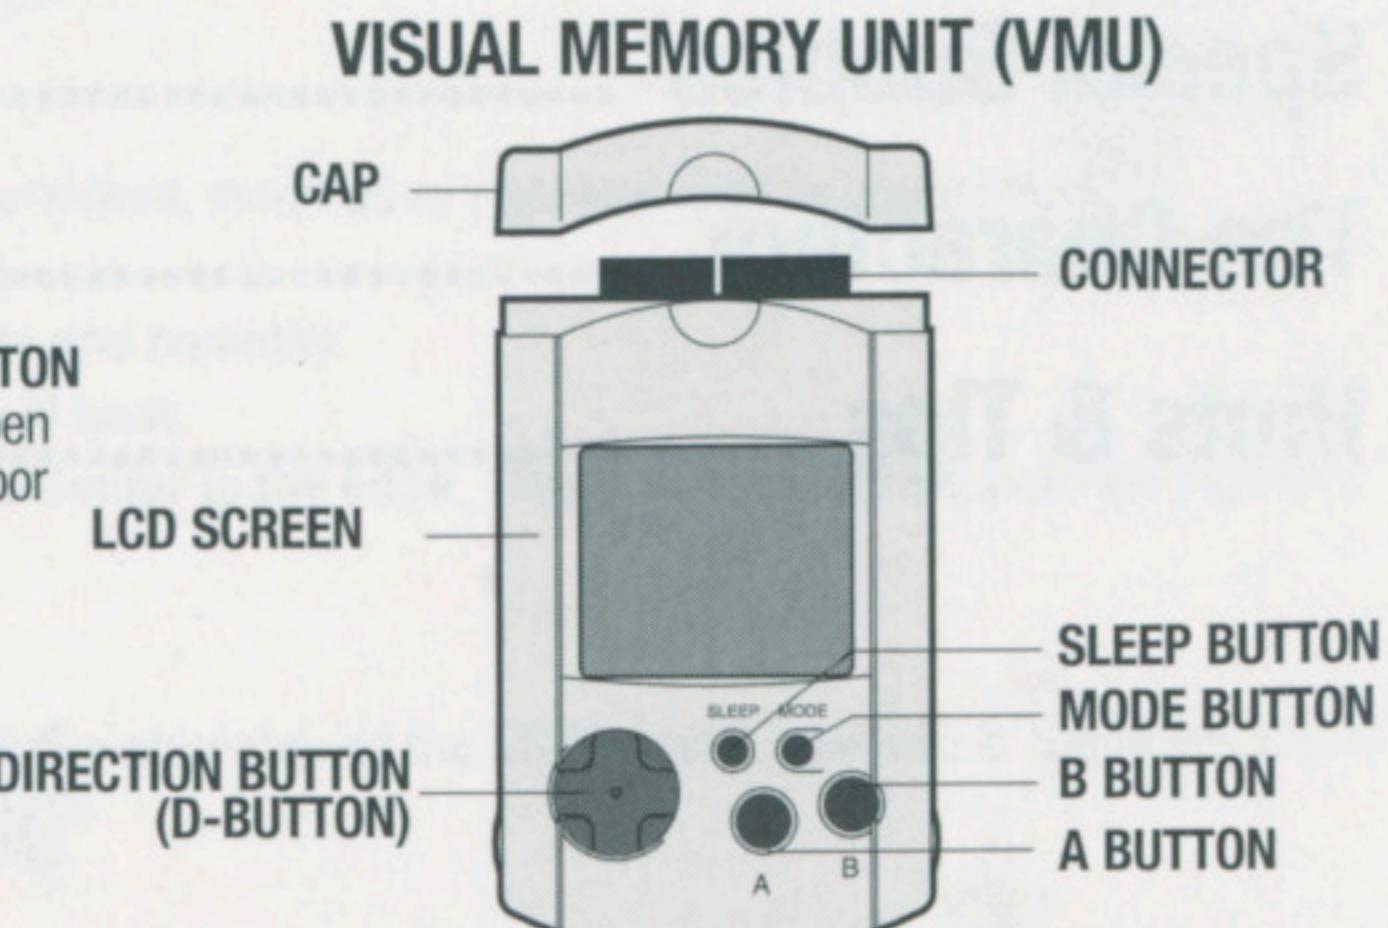

*Operation with incompatible controllers is not guaranteed.*

## SEGA DREAMCAST HARDWARE UNIT

Use these ports to connect the Sega Dreamcast Controller or other peripheral equipment. From left to right are **CONTROL PORT A, CONTROL PORT B, CONTROL PORT C, AND CONTROL PORT D**. Use each port to connect controllers for players 1 to 4 respectively.

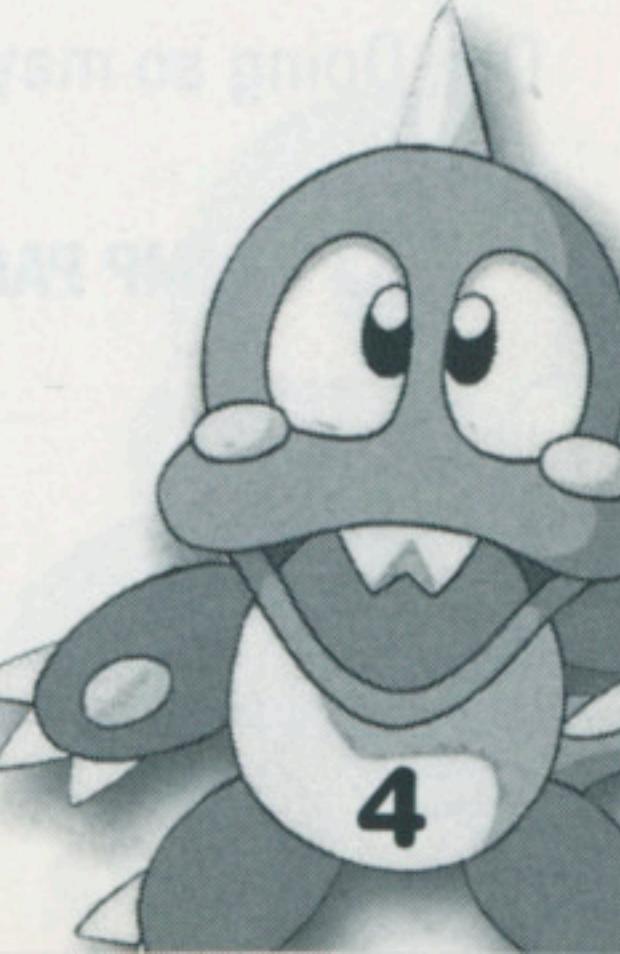

NOTE: **CONTROL PORT** can also be referred to as **PORT**.

Never disconnect the VMU/VMs while performing a battle or exchanging data when connected to another VMU/VM. Also note that leaving two VMU/VMs connected for a long period of time will considerably shorten the life of the batteries.

# A BEDTIME STORY

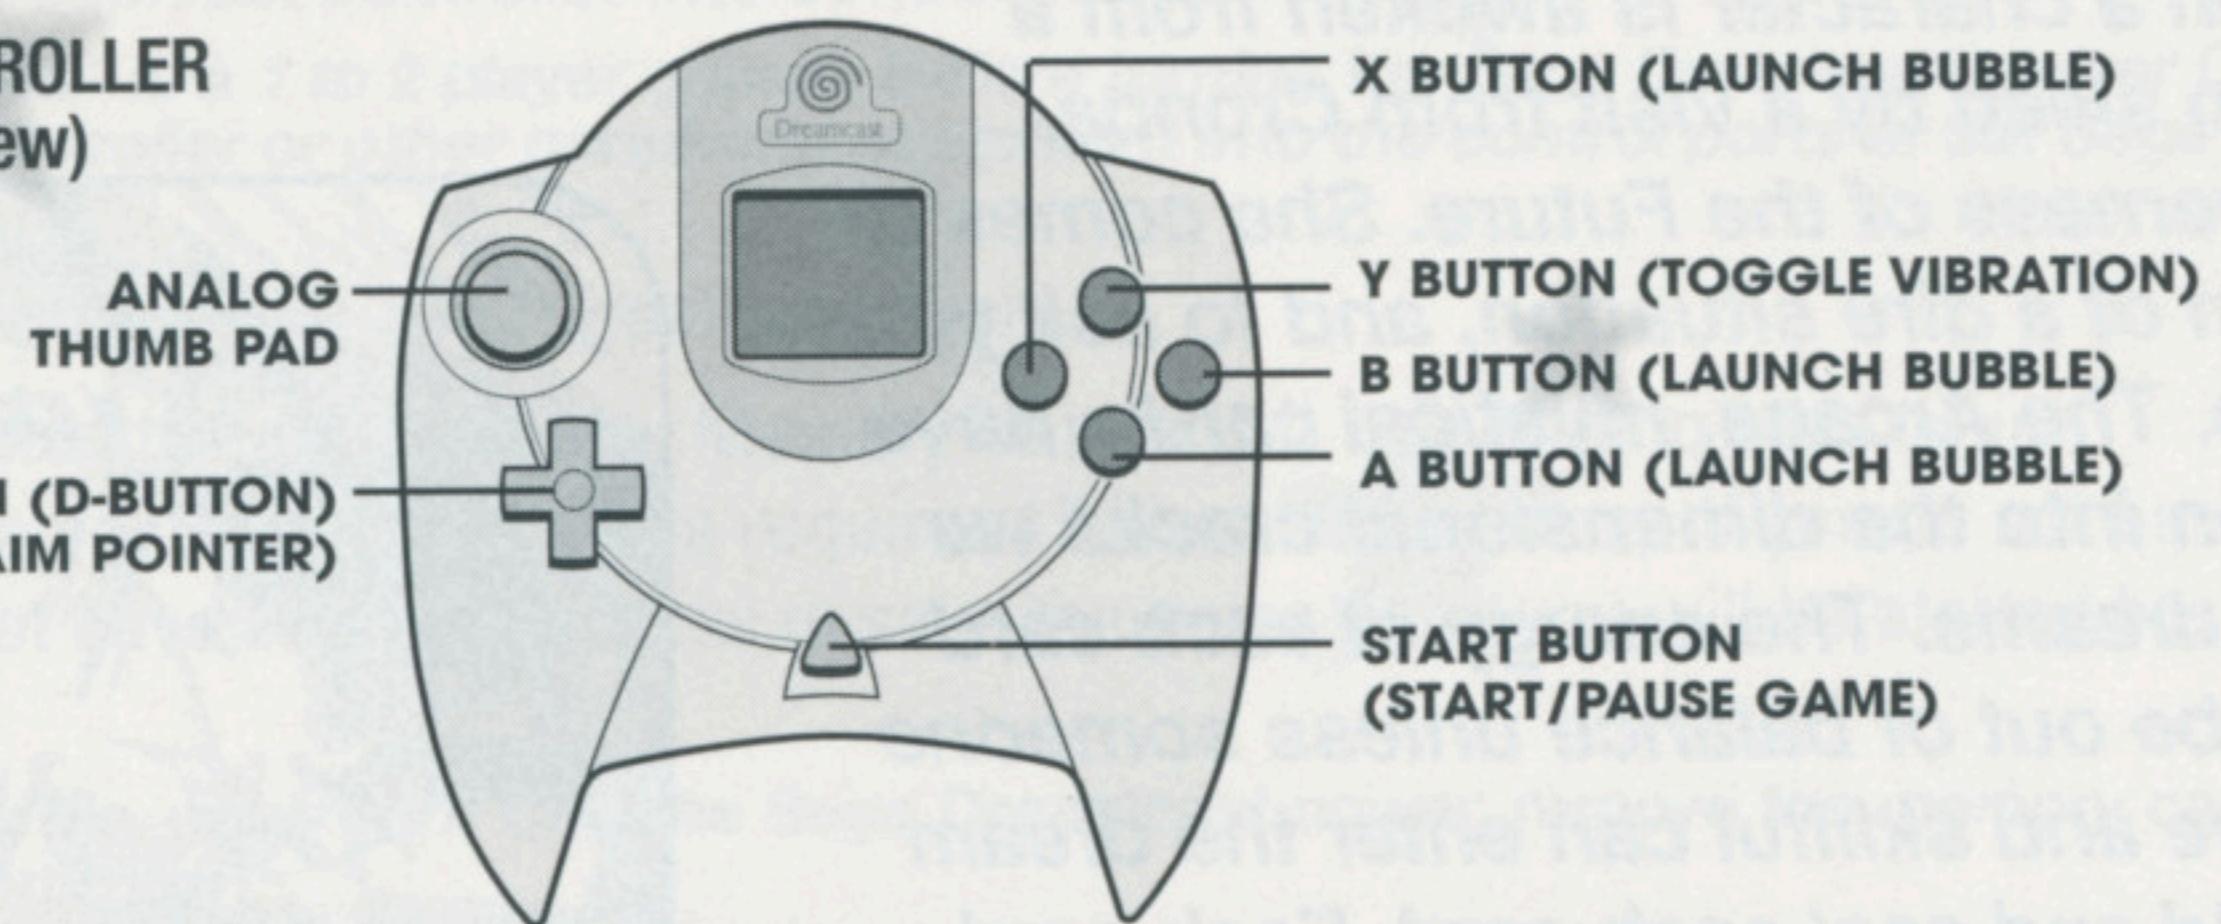

*A peaceful day ends with a wild night when a character is awoken from a deep sleep by a visit from Cronoa, Goddess of the Future. She comes to warn of a dire situation, and to ask your help. The Arcana, mystical cards, have fallen into the dimensional cracks we call dreams. The energy of each card will be out of balance unless someone brave and skillful can enter the dream world and seal each card. Each card has five challenging puzzles which must be solved in order to seal the card. It won't be easy, but Cronoa—and the whole universe—are counting on you to see this difficult task through to the end! If you meet this challenge, you will be greatly rewarded. Do your best to burst the bubbles and seal the cards!*

# GAME MODES

## PUZZLE MODE

Puzzle mode offers three different games: **ARCADE (ONE PLAYER)**, **STORY** and **COLLECTION**. That's a lot of bubble-busting fun! Select the desired mode by pressing **UP** or **DOWN** on the **DIRECTIONAL BUTTON** and start the mode by pressing the **A BUTTON**. Select Explanation of the Pulley for information on how the pulley system works.

### Arcade (One Player)

The object of Arcade mode is to clear a round by eliminating all the bubbles on the playfield. With difficulty set on "**EASY**", you'll play with help from the bubble launcher guideline. Normal difficulty raises the level to average and eliminates the guideline. Remember, the abilities of the various characters are not applied in this mode. You are offered a choice of routes (A- Z) for every 5 rounds that you clear. An ending sequence will be displayed if you clear the final zone.

### Story

Choose a character, then sit back as the story of Cronoa, Keeper of the Future unfolds (press the **A BUTTON** to skip the story). Then select any of several available cards by pressing **LEFT** or **RIGHT** on the **DIRECTIONAL BUTTONS** to move the highlight to a desired card and confirm by pressing the **A BUTTON**. You will then play the five puzzles associated with that card. Once you have mastered these puzzles, that card is sealed and you can choose any of the remaining cards. Continue in this way until you have completely sealed all the cards. It is a long process, but once you have sealed all the cards, you will get a special surprise!

### Collection Mode

Collection mode offers a vast collection of some of the best **BUST-A-MOVE** puzzles ever created. There are over 200 different puzzles from our top designers, so hunker down for a funfest!

- Press **LEFT** or **RIGHT** on the **DIRECTIONAL BUTTON** to select the round you wish to play.

- You can skip up or down 10 rounds by pressing **UP** or **DOWN** on the **DIRECTIONAL BUTTON**.
- You can skip up or down 1 round by pressing **LEFT** or **RIGHT** on the **DIRECTIONAL BUTTON**.
- Selecting **END** will return you to the title screen.
- After selecting the screen of your choice, press the **A BUTTON** to begin play.
- The following menu is displayed, after clearing a round.

**TRY AGAIN** Replay the current puzzle.

**NEXT STAGE** Play the next puzzle.

**RETURN TO MENU** Return to the Round Selection screen.

**EXIT** Return to main menu.

## PLAYER VS. COMPUTER

Player vs. Computer mode offers two different games in which you can compete against the CPU-controlled characters: Story and Win Contest. That's twice as much bubble-busting fun! Select the desired mode by pressing **UP** or **DOWN** on the **DIRECTIONAL BUTTON** and start the mode by pressing the **A BUTTON**. Select Explanation of Chain Reaction for information on how the chain reaction system works.

### Story (Player Vs. Computer)

Choose a character and listen to the story of the Rainbow's theft. The Moon Queen has stolen all of the bubble colors that make up the rainbow. It is your job to win back each colored bubble by competing against CPU-controlled characters on a round-by-round basis. Eliminate as many bubbles as possible or drop bubbles into your opponent's playfield. You win when your opponent's bubbles push past the **DEADLINE**. When you win, you proceed to the next round and a new opponent as the story continues. The game is over when you lose a round. An ending sequence will be displayed when you clear the last round.

Remember, the character you select is directly related to the type of bubbles you drop on your opponent (the character select screen illustrates which bubbles will be dropped on your opponent when you complete each chain reaction).

### Win Contest

Choose a character and compete against each CPU-controlled character to build up a succession of wins. One loss ends the game. Each win reveals more of the puzzle (you'll get a glimpse of the puzzle even if you lose but more wins unscrambles it even more!). Follow the same rules as Story mode to defeat your opponent.

## PLAYER VS. PLAYER

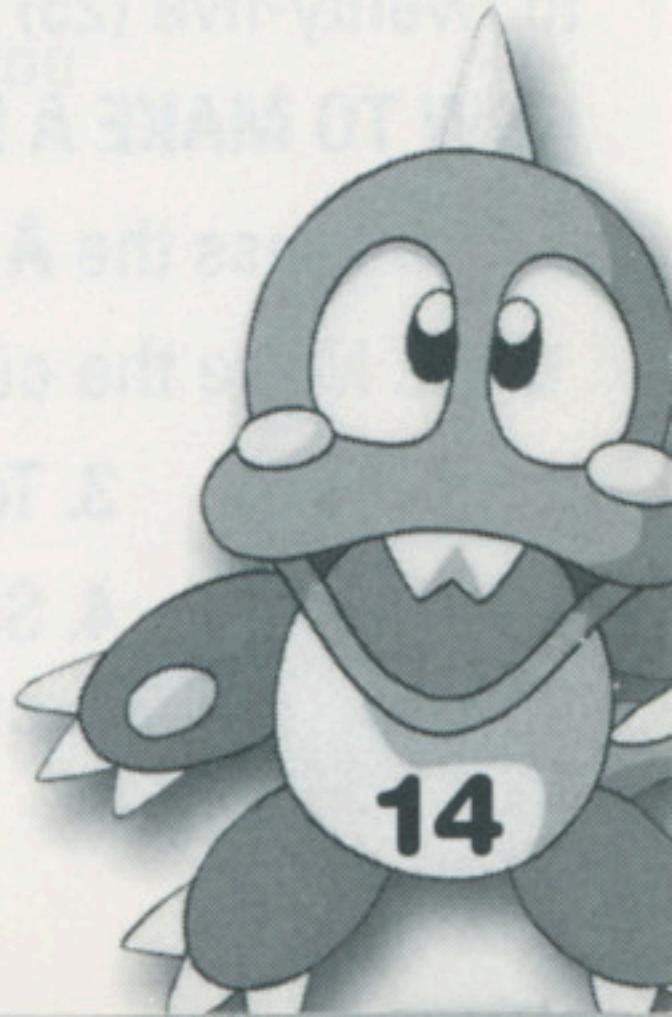

Select your player. Press either **LEFT** or **RIGHT** on the **DIRECTIONAL BUTTONS** to select and confirm your selection with the **A BUTTON**. Then you can select a handicap that will even the playing field if you and your partner's skill levels differ. From here, the rules are the same as Player vs. Computer but this time it's your buddy (not some CPU opponent) you're dumping bubbles on! Remember, the character you select is directly related to the type of bubbles you drop on your opponent (the character select screen illustrates which bubbles will be dropped on your opponent when you complete each chain reaction).

## CHALLENGE MODE

Challenge mode offers 5 different challenge stages, each with 5 rounds. Try your hand at each different challenge, then see how you did in the evaluation screen!

### Stage Map

On the **CHARACTER SELECTION SCREEN**, choose a character by pressing **LEFT** or **RIGHT** on the **DIRECTIONAL BUTTON** and decide your choice with the **A BUTTON**. The composition of the rounds will vary in accordance with the selected character.

## Begin Gameplay

Each stage commences with 5 rounds. Clear the stage for a higher score. You will progress even if you don't clear the stage but your score will be significantly lower.

## Stage Evaluation

Once you've cleared each stage, an evaluation screen will be displayed, followed by the next stage of the game.

## Grade

When all stages are cleared, the player will be graded according to performance and technique.

6. Press the **X BUTTON** to see the Puzzle Setup Edit Menu.

## THE EDIT MENU

When you press the **X BUTTON** while on the Puzzle Setup screen, the Edit Menu window opens. You can change these settings in Edit:

### Random Color

You can set random color. You can choose the color of a displayed bubble via the **ON/OFF** Button (you cannot choose **OFF** for all colors).

## Exit

## PUZZLE PLAY

Play the course you created! Basic rules are the same as in a Puzzle Game. There are five courses and five rounds per course. Once you clear an entire course, you are taken to the Course Transfer screen and sent to the next course. Once you complete the 5th course, the game is over. Unless you make all 25 screens in advance, the game will conclude at the time all self-made courses have been beaten.

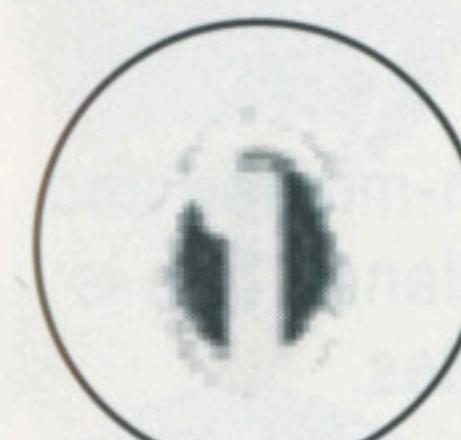

## SPECIAL BUBBLES

The bubbles described below have special properties.

### STAR BUBBLE

Contact with a bubble will eliminate all bubbles of the same color.

### RAINBOW BUBBLE

When in contact with an eliminated bubble, it will adopt the color of that bubble.

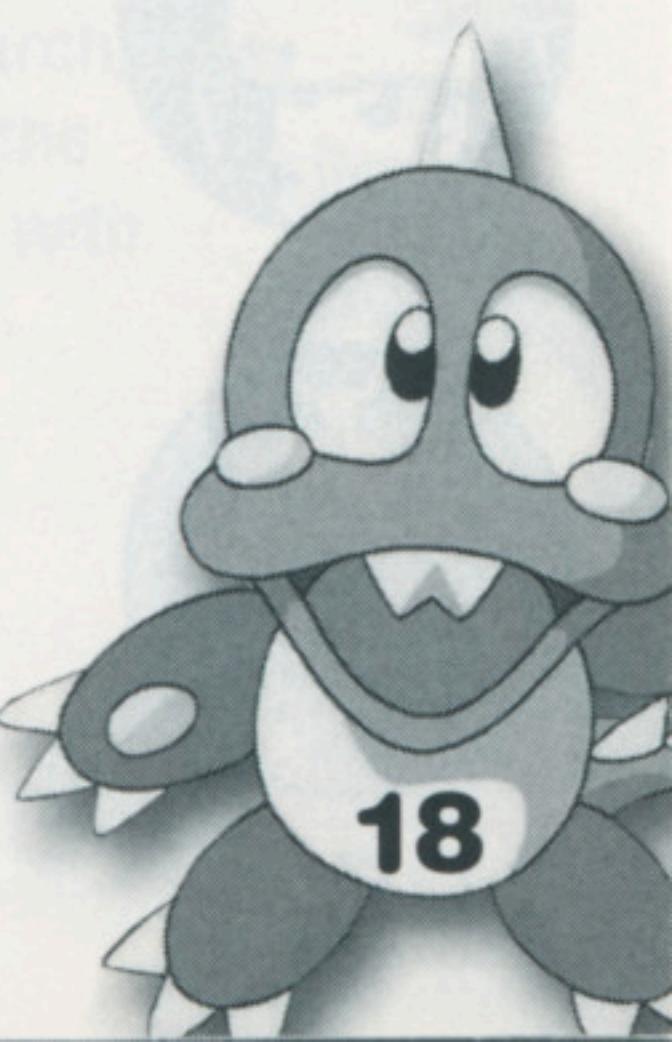

### BLOCK BUBBLE

Although blocks can't be eliminated, you can still clear a round whether they're on the playfield or not.

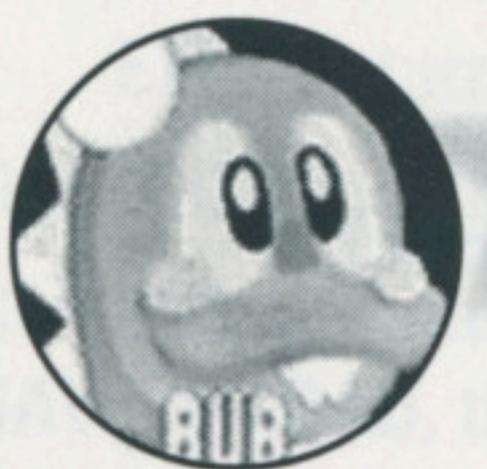

### BUBLOCK BUBBLE

Similar to Block Bubbles, a Bublock can be removed by eliminating all the surrounding bubbles in contact with it. However, you cannot clear a round if a Bublock is still on the playfield.

# THE CHARACTERS

Depending on the opposing character, bubble-attack combinations will vary.

## BUB and BOB

The twin brothers who live on the Planet Bubbleluna. Bub is the older brother. He is energetic and cheerful. Bob, the younger of the twins is the quiet, reserved type. The twins are the heroes of this story.

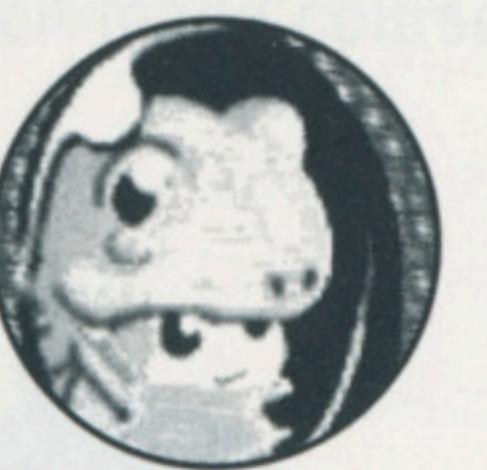

## ALKANET

She is a graceful princess from the planet Freeze. She is tough-minded and loves her planet. Woe be to anyone who causes harm to her planet. She is willing to take a voyage in order to retrieve the lost color bubbles.

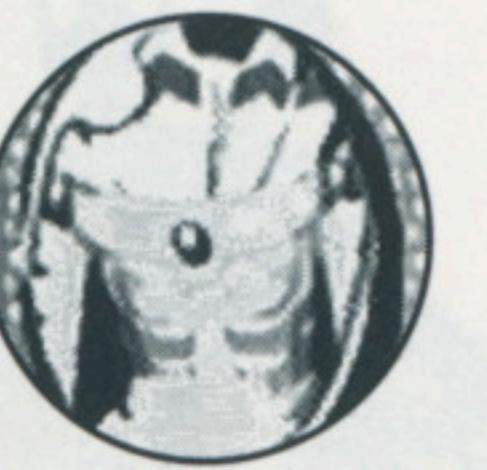

## MARINO

He's the son of Queen Naleto of the planet Wavy. He's a straight forward character, but a bit of a simpleton. He embarks on a journey to find the "morning", because the Kingdom of the Sea was roughed up by the incident.

## KUROL

She is a Baby from the Grrrrmm planet where people are always costume-clad. She is a laid-back character who loves to sunbathe and take naps. Her journey will be in search of the "morning" and the afternoon "Siesta." Both of which remain missing.

## TAMTAM

He is the Lord Protector of the divine Navajo planet. He is the father of the wind and the earth, and is capable of being hostile or gentle. He senses incidents of evil, and soars into space in pursuit of the wonders of night...the night which now never ends...the morning which never comes.

## CLEON

The Fairy of the Night. She is upbeat and mischievous. She is the subordinate of Full Moon Madame Luna, who is the main character involved in the incident. Cleon secretly harbors ambitions to overthrow Madame Luna, and assume the title of The Conqueror of the Night.

## GIGANT

He is a chief security guard at a once magnificent but now ruined castle on the planet Gothic. He continued to protect the castle despite the devastation around him. But one day, he fell under the seductive beauty of a rainbow bubble and for the first time felt the power to follow his own will: "I want that beautiful thing."

## DEVELON

He is the alter-ego of BAT who lives on the Planet Diable. He's always conspiring to cause harm and inflict damage, and he is the arch-rival of Bub and Bubbleloon. However, truth be told, he is nothing more than a lonely coward.

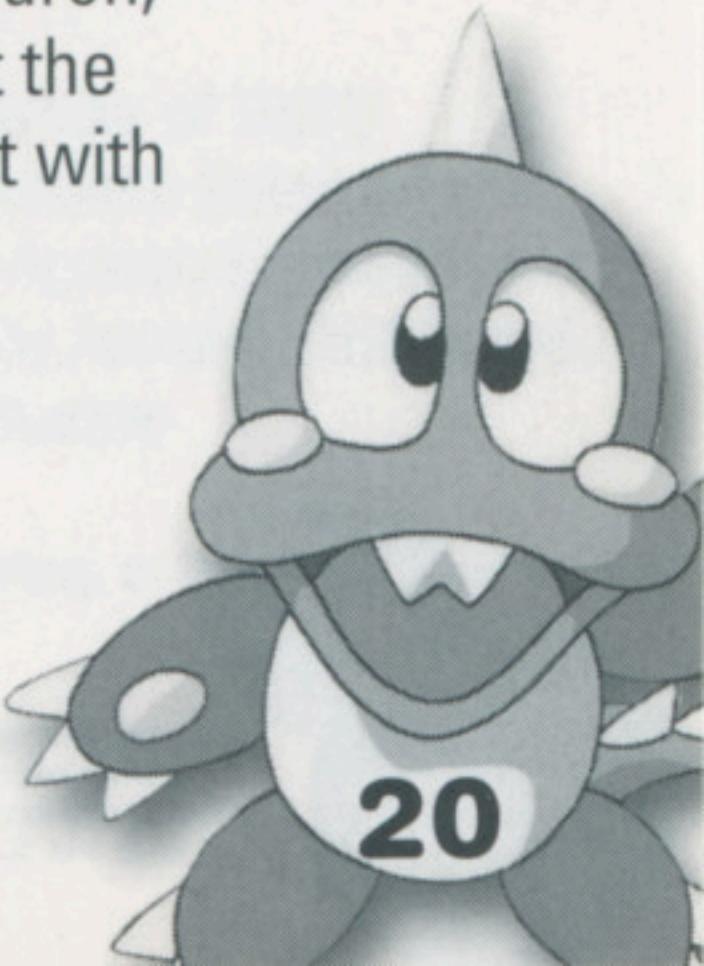

## BRAMB

He is a mad sorcerer from the planet Marzuk. He had been devoting a great deal of time to developing his ultimate magic trick, which was near completion when light, the main source of his pending research, suddenly vanished! When he finally learned the truth about the incident, he immediately began to plot a way to control light with the rainbow bubbles.

## G

An old, mysterious man who lives on the planet Ordeaux. No one knows his real name, and everyone refers to him only as G. There's a rumor that he likes tea. Also, when he is sharp he is quite fearful...?

# HINTS & TIPS

1. Study the way the puzzle is constructed, and how the bubbles are suspended. Note which bubbles are "linchpin" bubbles (bubbles which have a string of bubbles suspended from them). Often, eliminating a particular strategically placed bubble will cause an entire puzzle to give way!
2. Practice bouncing/angling your shots off the sides. This is the true way to mastering the game. Once you're good at doing this, you'll be able to pull off the tough shots that save the day!
3. Fire rapidly! As soon as you have your shot lined up, don't hesitate, shoot! Fire one right after another when bubbles are the same hue.
4. Watch your indicator to see what the next bubble is. A big part of a successful strategy is aiming the current bubble in anticipation of where you'll shoot the next one!
5. When playing an opponent (Human or CPU), make sure to set up your shots immediately. This means hanging a few bubbles off of two like-colored bubbles so that you'll be able to send "blocking" bubbles over to your opponent after you've dropped your bundle!
